VIFAA ENGINEERING ENTERPRISES has a reputation of being the service provider of choice in the fire protection industry. This is supported by the large number of long standing maintenance agreements the Company enjoys.

Routine testing and maintenance procedures are supported by an effective and reliable after hour's emergency service.

We encourage you to experience the VIFAA ENGINEERING ENTERPRISES difference for yourselves and look forward to being of service to you.

## ENVIRONMENT:

**VIFAA ENGINEERING ENTERPRISES** is committed to improving the environment in which we operate. We endeavor to meet the needs of the present without compromising the needs of the future. As a proud member of the community, we care about the impact our services have on the environment. We aim to minimize the amount of energy and water required to maintain your fire protection systems. We encourage the introduction of the **VIFAA ENGINEERING ENTERPRISES** Water Savings Initiatives to our service clients. The principles we seek to consistently apply in our daily operations include:

- Understanding our environmental footprint and responding in a responsible manner;
- Adopting processes and techniques that conserve water;
- Inspiring and educating our staff and clients to act more sustainably;
- Economically resolving unsustainable practices;
- Assessing costs and benefits to enhance value in decision-making;
- Ensuring environmental laws, statutory requirements and obligations are complied with;
- Supporting the use of recycled materials where practicable;
- Providing transparency in reporting.
